

PMA40108

Certificate IV in Process Plant Operations

These qualifications are defined in the nationally endorsed Chemical, Hydrocarbons and Oil Refining Training Package.

A Training Package links workplace competencies with qualifications under the Australian Qualifications Framework.

- ◆ Have your existing skills and knowledge recognised
- ◆ Gain a qualification or have a single competency recognised
- ◆ Contextualised to your workplace
- ◆ Flexible training delivery

PMA40108

Certificate IV in Process Plant Operations

PMA40108 Certificate IV in Process Plant Operations

This qualification is suitable for more senior operators, operating a control panel looking after a sizeable part of the plant, responsible for outside operators, workplace assessors/trainers and quality inspectors.

Entry can be through a:

- an **existing worker traineeship**
- **fee-for-service**

Programme Structure

Refer to our *unit selection form* and *competency unit summary booklets* for further information on the program structure

New features of the PMA training package

Because specialisation is a requirement in some industry sectors for the Certificate IV, Alan Bartlett Consulting may choose to issue a generic qualification:

‘Certificate IV in Process Plant Operations’

or, where elective units of competency are packaged to suit a particular industry sector or specialisation, Alan Bartlett Consulting might issue a:

Certificate IV in Process Plant Operations (specialising in xxxxxxx)*

*It should be noted that a qualification with a specialisation does not change the title of the qualification, although Alan Bartlett Consulting may choose to record the specialisation. The AQTF requirements must be complied with and the qualification or Statement of Attainment should clearly specify the units of competency achieved and where appropriate, the specialisation.
